

WAYNE-DALTON

Rolling Service Doors, Counter Shutters, Fire Doors and Grilles

The Wayne-Dalton line of Rolling Door Systems features service doors, fire doors, counter shutters and grilles designed to fit a wide range of applications. However, in many instances, a specific application calls for a specialized door that doesn't quite fit one of our standard models. These situations are an ideal time to call on our highly skilled product team for help.

Our Rolling Door Group customer service managers and engineers can help you determine precisely what your needs are and whether modifying an existing door design to meet your criteria would be feasible. From engineering over-sized doors (in some cases, more than 800 square feet!), to modifying doors to accommodate man doors or other obstructions, these individuals have a great deal of experience at customizing doors to meet our customers' unique needs.

If you can't find the perfect door for your application, contact our Rolling Door Group at 800-255-3046 to discuss your needs and see if customizing a door for your job is the right way to go.
